# Celebrating our Multilingual Learners

# About our ML Students

- Norridge School District 80 currently services 327 students who are identified as Multilingual (ML).
- These are students who have exposure to a different language other than English at home.
- Our ML Students represent 28 different languages!
- Any child who is identified as ML must take the ACCESS test.

# What is the ACCESS Test?

- ACCESS for ELLs is an annual English language proficiency assessment required by federal and state law.
- Given to all identified English Learners, usually between January and March.

## What are the core areas of ACCESS?

# ACCESS

ACCESS measures English Language proficiency in four domains:

- Listening
- Speaking
- Reading
- Writing

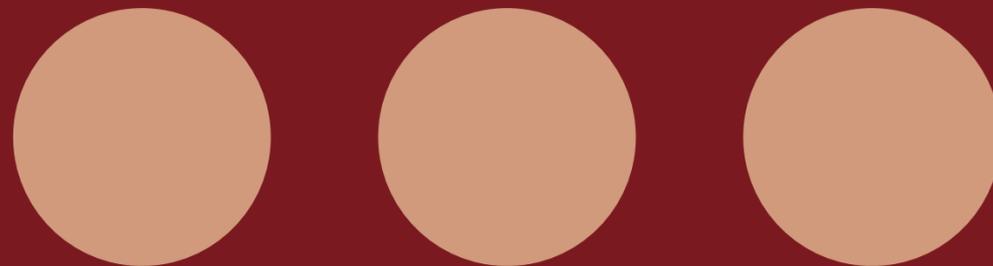

Students are also scored across composite areas:

- Overall Composite Score (a weighted average of the 4 domains)
  - Literacy Composite (reading and writing)
  - Oral Composite (speaking and listening)
  - Comprehension Composite (reading and listening)
- 

# How do students exit ML services?

## Exiting ML Services

- To exit ML services, students must score:
  - An Overall Composite score of 4.8 or higher on the ACCESS for ELLs.
  - This score indicates that the student is proficient in English for academic purposes.

# Celebration!

This year, we had 38 students who scored high enough to exit out of our program! This is a huge celebration both for our students for their hard work and dedication, as well as to our teachers for their unwavering support of our diverse learners.
